

Mastering NGS-IQ's Excel Output Options, New Email Controls, and WebRunner Keywords

During this **NGS-IQ** Share & Learn webinar:

- We'll contrast the ways you can output queries to Microsoft Excel to help you choose the best option for different requirements.
- We'll also explain new commands in release 7.2 that assist you in managing *NGS-IQ's* email options and the new keywords you can use to take advantage of WebRunner enhancements.
